

# Maintenance instructions

for Block lacquered timber floors

## Maintenance Instructions

A Block floor is a unique piece of timber that's designed to last.

But it's also important that you take good care of your floor as timber is a natural product that is susceptible to ageing. With the right treatment and the right products, your Block floor will always look its best.

We highly recommend WOCA products for the maintenance and care of your Block floors. WOCA is the leading manufacturer of wood oils and wood care products with over 40 years of experience and technical expertise.

Our instructions below explain how you get the best results.

## Maintenance Kits

WOCA's complete maintenance kit for lacquered floors can be purchased directly from us.

## Suitable products

## for Block lacquered floors

**WOCA Master Cleaner:** Used frequently for the general cleaning of lacquered floors.

**WOCA Master Care:** This product is used once a year to refresh your lacquered floor. This product strengthens and prolongs the life of the surface as it protects against wear, tear and scratches.

**WOCA Intensive Cleaning Spray:** This is a unique ready-to-use-spray for the all-round cleaning of all interior wood work such as furniture, staircases, doors, panels and worktops independently, whether the surfaces are oiled, waxed or lacquered. It provides excellent cleaning, removes the most difficult dirt, grease and stains, and is fast and easy to apply.

## General cleaning instructions

## for WOCA Master Cleaner

1. Mix 125ml Master Cleaner with 5 litres of water for regular cleaning.
2. Wash the floor lengthwise. It is recommended to work with two buckets – one with solution and one for rinsing.
3. It is recommended to use as little water as possible for the cleaning and make sure that no water is left on the surface after.

Weekly usage is highly recommended

## Maintenance of your lacquered floors

## for WOCA Master Care

1. Wash the floor thoroughly with WOCA Master Cleaner. Wash with clean water afterwards.
2. Leave the floor to dry completely before application of Master Care.
3. Shake the container well before use.
4. Apply the concentrated care product in a thin and even coat, using a cotton cloth or dampened spray mop. If the cloth/mop becomes dirty, rinse in clean water and wring thoroughly. Then continue the application. Do not apply additional Master Care once a surface has begun to dry.
5. Leave the floor to dry for 1–2 hours.

## Targeted cleaning

## for WOCA Intensive Cleaning Spray

1. Shake bottle thoroughly.
2. Spray the Intensive Cleaner onto the surface.
3. Leave solution to dissolve affected area.
4. Wipe surface dry with a firmly wrung cotton cloth.
5. Allow surface to dry.
